

Reliability in onshore and offshore service support

Delivering reliable, cost effective Marine
and Oil & Gas industry service support
across the entire Mediterranean region.

Safeguarding your interests 24/7.

MMH

One location, one solution...

MMH Port Services

Provision and management of Port Services including Terminal Management, Representations for Vessel Owner, Operator and Charterer, Customs consultancy and management and the set up and management of a logistics base for the operational execution of onshore/offshore programs.

MMH Technical Services

The provision of Technical services including the coordination and execution of works through the integration of the Service and Supply chain required by the Marine and Energy industries, such as assessment and execution of marine vessel maintenance works, stewarding drill pipe and riser inspections and repair in line with OEM specifications and rig maintenance projects.

MMH People

The provision of human resources recruitment services as per client requirements as well as, crew logistics including manpower planning and personnel ingress and egress management from personnel place of domicile to place of work programs.

MMH Academy

A training institution specifically set up to be a key player in the provision of training facilities, training and preparation of workers seeking a long term career in the Marine and Oil and Gas Industries. Courses include: Well Control, CompEx, Marine Licencing (Flag States), Maintenance Training, RINA courses and Bespoke Training.

MMH Regional Support

Malta-based, MMH is not Malta-confined. MMH can support your operations anywhere in the Mediterranean and North African region through its extensive networks, delivering the same high levels of service and support you would enjoy in our home base.

Our facility

Facility & Service Support optimised for your business – where you need it, when you need it, how you need it to drive down cost and mitigate risk across the Full Value Chain.

MMH is based in Malta and operates the Mediterranean Maritime Hub.

The Mediterranean Maritime Hub offers physical facilities in a single and secure location together with new ways of collaborative working which deliver measurable cost-reductions and higher operational efficiency.

The Hub will be home to multiple organisations with multiple service offerings which will all subscribe to the concept of the cost-effective, high efficiency working model. Together they will deliver the holistic supply chain solution needed for a cost-effective, high efficiency industry.
